

3 KEY TAKE AWAYS

TO INCREASE THE REUSE AND RECYCLING OF PRODUCTS

COMMITMENT

A commitment for making sure that there is a will throughout the system to give back what is used.

RETURN

This ultimately is a return which is a system solution that needs to work for the short-term use or the long-term use of a product.

SCALE

And this needs to work at a scale ranging from just a few users to a massive collective of users.
